The Ideal magazine capacity to shoot these matches is 10 rounds, but don't worry if you only have a small capacity magazine it is still possible to shoot the matches, , if your new to this type of shooting, please don't be put off by the course of fire, it's not difficult, and we will have people on hand to guide you throughout the day.

We will be keeping scores during the day, so you can see your results, you will also get the opportunity to see your fall of shot on each target on the computer screens in the control room. I would like to stress, **this is not a competition day**, it's for people that haven't tried this type of shooting before or too hone your skills if you have, the scores are just for your own benefit, so you can see how you improve during the day. it's an opportunity to try a new discipline and have a bit of safe fun in the process, we have several people that shoot these matches on a regular basis who will be on hand to give you any help and advice you may need.

WHY NOT BRING YOUR NO4, SMLE, MAUSER, ETC AND HAVE A GO
